

Head Interiors

A multi-award-winning interior design consultancy with an international footprint

KAREN AHRENDS AND MMAALAF A MOLEFE INTERIOR DESIGNERS

Founded by Michael Harrison and Sharon Fihrer, Head Interiors' portfolio encompasses award-winning contemporary homes, functional workspaces, hotels and lodges. For over four decades, Head Interiors has remained at the forefront of interior design in South Africa. It creates desirable spaces distinguished by craftsmanship, originality and careful attention to detail.

What inspires your design goals? At Head Interiors, we are motivated by the continual growth the creative process offers and the opportunities to design for delightful and better futures. Our designs are tailored and guided by the understanding that good spatial design not only shapes our outlook, but also significantly influences our wellbeing. From flow to functionality, every element of an interior is considered through our detailed process and curious approach to design. It is a great privilege to design a home; it is one of our most influential environments.

What is your biggest source of inspiration? Travel ... and seeking to understand what people want to achieve and then tailoring a space for them. We create spaces to inspire by seeing potential and then celebrating it.

What is your design philosophy? Good design has to function well and look good.

What is your favourite space in your home and why? The kitchen: food and conversation equals nourishment!

LVN Interiors

Creating livable luxury bespoke interiors from inception to completion

LEANNE VAN NIEKERK OWNER AND DESIGNER

LVN Interiors specialises in crafting bespoke interiors tailored to new construction and renovation projects. Its comprehensive services encompass every aspect of interior design, from initial floor-plan development and interior drawings to the meticulous selection of custom cabinetry, finishes and furnishings. LVN Interiors ensures a seamless and exquisite transformation of your space.

What is your design philosophy? My design philosophy as a creator of customised, sophisticated and luxurious interiors is centred around a client-centric approach, meticulous attention to detail, prioritising quality and innovation, embracing cultural relevance and promoting holistic wellness in design.

What interior design trend are you currently loving? I am loving the biophilic design trend at the moment – the ability to create meaningful connections with nature, enhance wellbeing and promote sustainability by integrating natural elements, such as plants, natural light and organic materials.

What is the best piece of advice you have ever received? Prioritise functionality alongside aesthetics. While creating visually stunning spaces is important, it is equally crucial to ensure the design serves the needs and lifestyle of the occupants. Pay attention to how people will use the space, their habits and their comfort. A beautiful design that doesn't function well won't be appreciated in the long run. Additionally, always stay updated with the latest trends and technologies in the field to offer innovative solutions to your clients.
